Obituary

One of our fellow club members, John Donald Close, passed away suddenly on April 13 due to a heart attack; he was just 51 years old. Our hearts go out to Geneal Close, Don's wife, and the rest of her family. As editor of the newsletter, she is a great asset to the club and does a fantastic job. Our deepest sympathies go to her.

Bob Campbell is temporarily serving as acting editor this month because of the situation.

FROM THE PRESIDENT

Dear N.U.T.S. Members,

First, I want to give you a report of an expedition I participated in this past February. It had first started out as a wild goose chase when I had been informed of an old air plane crash site in the west desert. At first I was skeptical if it **even existed**, but when I heard a group had been successful in finding some things, I became excited and travelled to the site the next weekend. Here is a list of what I found:

- | | |
|---|------------------------------|
| a. 1 pair of pilots wings | b. 1 2nd Lieutenants bar |
| c. 1 1st Lieutenants bar | d. 1 St. Christopher's medal |
| e. 1 hat medal patterned after U.S. coat of arms. | |
| f. 1 1916-s dime (my daughter found) | g. 1 1943 dime |
| h. Many Military buttons and other personal belongings. | |

After some hours of research, we found that the plane crashed in 1944. It had 11 men on board: 6 jumped to safety and 5 perished.

This month's meeting will be on April 23 at 7:15 sharp. There is a promptness prize, so be on time. This month I have asked a friend to come and speak about his experiences exploring natural caves. I would also like to send my deepest condolences to Geneal Close who lost her husband on April 13. We all send our love.

NOTES AND DOODLES

The Jim Hansen token collection was sold to a new collector on April 7, 1992, for about \$20,000, reported Bob Campbell of All About Coins in Salt Lake City.

The 1800+ item collection was considered the second largest Utah token collection to be known. The collection is comprised of tokens from 204 different Utah towns and a variety of other merchants. Bob Campbell reported that it was the highest price ever paid for a trade token collection in Utah, not to mention the largest such handled.

Jim Hansen passed away in 1987 and his wife had kept it since then, without adding to his work. She was reluctant to sell the collection because she said, "It was an obsession with him and had been a lasting source of enjoyment up to his death."

The new owner said he would keep the 204 town part of the collection and would probably sell or trade the rest for other towns needed in his collection. In the seven loose-leaf binders there are at least six towns that no other collectors have and many unique and unusual saloons, co-ops, dairy and other type of trade tokens.

Persons that are interested in possibly buying or trading for some of these tokens need to contact Bob Campbell, agent for the "Anonymous Collector," at his coin shop: All About Coins, 1123 E. 2100 S. Salt Lake City, Utah 84106. Phone: (801) 467-8636.

James E. Hansen

SALT LAKE CITY—Dr. James Edwin Hansen, 56, of Holladay, Utah, passed away at the Holy Cross Hospital from Leukemia on Sunday, May 31, 1987.

He was born July 19, 1930 in Pleasant Grove, Utah, the son of Alonzo L. Hansen and Ann Olpin Hansen of Ephraim.

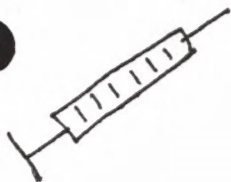

Dr. Hansen married Carole Casper and was later divorced. He married Patricia Tischner in the Salt Lake Temple on December 17, 1976. He was educated in Ephraim and later attended Snow College, The University of Utah, and the University of Utah Medical School. Dr. Hansen has specialized in ears nose and throat and Wholistic medicine in Salt Lake City since 1961. Service and compassion was his life time motto. He was an Eagle Scout and an avid outdoorsman and skier, and an enthusiastic token collector. He was active in the LDS Church, he served a mission in Eastern Canada and had served in several bishoprics, as a Sunday School teacher, and at the time of his death was a High Priest Group Counselor in the Holladay 26th Ward.

Survivors include his wife, Patricia Tischner Hansen, Holladay; his sons, Marc and Randy, St. George; and Eric, Provo; his daughters, Mrs. Alan J. (Karen) Cook, and Mrs. Rory (Lara Jane) Wright, St. George; one granddaughter; his father Alonzo Hansen, Ephraim; his brothers, David, Salt Lake City; and Harold, Sacramento, California; he was preceded in death by his son, Kelly; and his mother, Ann Bell Olpin Hansen.

Private family graveside services were held in the Ephraim Cemetery. Memorial services will be held Wednesday June 3, 1987 at 1 p.m. in the Holladay Stake Center, 4568 Holladay Blvd. Friends may meet the family at the Stake Center Wednesday from 11:30 till 1 p.m. prior to the memorial service. The family request in lieu of flowers that a contribution be made to the LDS General Missionary Fund.

Spring is in the air and everyone is getting the "bug" to get out and start exploring and searching for the exceptional finds. I thought that I would pass on the following material to all club members so precautions can be taken not to catch this "BUG"!!!

IMPORTANT INFORMATION ABOUT TETANUS AND DIPHTHERIA AND Td VACCINE

Please read this carefully

Td 1/1/88

WHAT IS TETANUS?

Tetanus, or lockjaw, results when wounds are infected with tetanus bacteria, which are often found in dirt. The bacteria in the wound make a poison which causes the muscles of the body to go into spasm. In the United States, four out of every 10 persons who get tetanus die of it.

WHAT IS DIPHTHERIA?

Diphtheria is a very serious disease which can affect people in different ways. It can cause an infection in the nose and throat which can interfere with breathing. It can also cause an infection of the skin. Sometimes it causes heart failure or paralysis. About 1 person out of every 10 who get diphtheria dies of it.

Before vaccines were developed, these diseases were more common and caused a large number of deaths each year in the United States.

Td VACCINES:

Immunization is the best way to prevent these diseases. Td (tetanus and diphtheria) vaccine is two vaccines combined into one shot to make it easier to get protection. The vaccine is very effective at preventing tetanus — over 95 percent of those who receive the recommended number of shots are protected. Although the diphtheria part of the vaccine is not quite as effective, it prevents most persons from getting diphtheria and in the others makes the disease milder. All adults should have received at least three shots of tetanus and diphtheria vaccines. Those who have not should complete a basic three-shot series, and those who have should receive a booster dose every 10 years throughout life. It is not ever necessary to start over the basic series even if years have gone by. Most adults born in the United States since 1940 received the basic series as children with their DTP or DT shots (diphtheria, tetanus, pertussis or diphtheria tetanus). Adults who served in the military during or after World War II should have received part or all of the basic three-shot Td series during their service.

Side effects from Td vaccine are not common and usually consist only of soreness and slight fever. As with any drug or vaccine, there is a rare possibility that allergic or more serious reactions or even death could occur.

Listed below are the locations in Salt Lake where one can go and get this vaccine.

Hours: 8:30am - 11:30am 1:00pm - 5:00pm

THE FEE FOR THIS VACCINE IS ONLY \$3.00.

I went to the clinic on 2001 South State and was there for about 15 minutes. I stopped at the clinic on 3195 South Main for the above literature and the waiting room was very crowded.

PS: They don't give suckers out for being brave!! ☹️

PREGNANCY:

Babies born under unsanitary conditions to unimmunized women have a risk of developing tetanus during the newborn period (neonatal tetanus). Neonatal tetanus can be prevented by immunization of adult women. Women who have not received Td earlier and who are thought to be at risk of delivering their babies under unsanitary conditions should be immunized during pregnancy.

Td vaccine is not known to cause special problems for pregnant women or their unborn babies. Doctors usually do not recommend giving any drugs or vaccines to pregnant women unless there is a specific need. Pregnant women who need Td vaccine should receive it, preferably during the second and/or third trimesters.

WARNING — SOME PERSONS SHOULD *NOT* TAKE THIS VACCINE WITHOUT CHECKING WITH A DOCTOR:

- Anyone who is sick right now with something more serious than a cold.
- Anyone who has had a serious reaction to Td shots before.
- Anyone taking a drug or undergoing treatment that lowers the body's resistance to infection, such as: cortisone, prednisone, certain anticancer drugs, or irradiation.
- Anyone who has had a serious reaction to a product containing thimerosal, a mercurial antiseptic.

QUESTIONS:

If you have any questions about tetanus or diphtheria or Td immunization, please ask us now or call your doctor or health department before you sign this form.

REACTIONS:

If the person who received the vaccine has an allergic or other serious reaction, the person should be seen promptly by a doctor.

If the person who received the Td vaccine gets sick and visits a doctor, hospital, or clinic in the 4 weeks after immunization, please report it to:

THE GENUINE German Herb Tea.

A HARMLESS VEGETABLE REMEDY AND A POSITIVE CURE FOR CONSTIPATION, with no bad after effects. It is composed of herbs and roots familiar to the peasant of Germany, especially those who nurse the sick. Through irregular living, poorly cooked food, improper habits of eating, nearly all persons are suffering more or less from constipation and the resultant sick-headaches; although there may be a daily movement of the bowels, there is still much fecal matter adhering to the intestines and poisoning the blood. Our Herb Tea, made of simple, harmless herbs, will, when taken regularly for a short time, thoroughly cleanse the stomach and bowels of all unclean matter. The blood becomes purified and the person greatly improved in health.

-DR.- HAMMOND'S INTERNAL CATARRH CURE.

A RADICAL CURE FOR CATARRH.

Reduced to 50 cents.

Formerly sold at \$1.00.

IF YOU HAVE CHRONIC CATARRH order Dr. Hammond's Internal Catarrh Cure and you will get instant relief and a speedy and permanent cure. A great many people cannot understand how our internal remedy can affect catarrh when located in the head, where most people feel the catarrh first, but whether in the head, stomach, bowels, bladder or throat it is all the same. Dr. Hammond's Internal Catarrh Cure will destroy the disease and make you well again. Catarrh is a chronic inflammation of the mucous surface and it is the same wherever you find it, you cannot completely cure it until the whole system has been put in perfect health. Local treatment will give you relief but can not cure. When the hearing has become affected we have never failed to give relief and often completely restore it by the use of this great remedy. Full directions accompany each bottle, also fuller particulars concerning it. Cure your catarrh with Dr. Hammond's Internal Catarrh Cure. Try a bottle, and you will surely use it until well again.
